## WHY SHOULD YOU DO BUSINESS WITH US?

For over 25 years, OSHA Compliance Group Inc. has conducted business based on 3 rock solid principles, Integrity, Honesty and the Belief that you always treat your customers like family.

At OSHA Compliance Group, we are passionate in our conviction that companies who manage their worker's health and safety properly through OSHA required safety training and safety programs are positioned to operate their companies more efficiently, through increased worker retention and lower risk of OSHA citations, which typically results in a greater bottom-line profit. The National Safety Council reported that studies show for every \$1 that an employer invests in safety, a \$3 to \$6 return on investment is realized!

OSHA Compliance Group provides more than just a "one-size-fits-all" safety manual which can weaken the effectiveness of your safety documentation and leave you liable. For over 25 years we have developed safety manuals and safety handbooks that help establish effective lines of communication between employer, employee and client.

## HAVE YOU EVER BEEN FINED BY OSHA?

If so then you know it can be a stressful and scary experience that can literally put you out of business. If a fine of thousands or tens of thousands of dollars doesn't put you out of business then consider the impact of the negative publicity you can receive in today's world of social media for violating OSHA's safety regulations.

OSHA requires every business with one or more employees to have a written safety manual (also known as IIPP or Injury, Illness and Prevention Program) in place. Your safety manual must cover all aspects of OSHA standards and fines result if they are incomplete or outdated.

## *Your Safety is Our Highest Priority!*

Getting caught without a Safety Manual could cost you thousands or tens of thousands of dollars in fines, not to mention the nightmare of not having one when OSHA shows up at your door. Remember, when it comes to the safety of your employees, being OSHA compliant is not only a good idea... it's the law!

## HAVING A SAFETY MANUAL IS IMPORTANT!

Our team of professionals came together to create an affordable, professionally written, OSHA Compliant Safety Manual that is second to none in the industry today. Every manual we create is customized using your industry, state, and company specific safety details and we guarantee it will meet all Federal and State OSHA standards.

Whether you need a Construction safety manual, a Medical or Dental safety manual, a Manufacturing safety manual or anything in-between, OSHA Compliance Group can help. Our safety manuals are tailored to meet the specific requirements of your company and will be prepared in your company's name to your specifications.
